POETS KNOW. . .

David Brinkley closed a commentary on the death of China's Mao Tse-Tung the other day, noting that Chairman Mao was a poet.

Brinkley in his terse baritone said about the man who ruled a quarter of mankind: "Poets know."

The problems of feeding and educating astronomical numbers of Mainland Chinese, perhaps a half billion to a billion at any given time during Mao's life, compel China watchers to compare him with the greatest leaders in China's 4,000 years.

His is the idealogy of breadbasket survival. But, once the stomachs are filled, what of the minds? Ancient and Middle-Age Chinese leaders developed great city states before these numbers outran leadership logistics, before Europe emerged from the Dark Ages, before Karl Marx wrote "Das Kapital" in poverty-stricken research in London.

Mao built the communist bridge to Peking.

Even for these Mainland Chinese, life is more than a belch of contentment after a 66-hour work week and reading Mao's little Red Book of "Thoughts."

But, it is better than starvation and submission to warlords prior to the Kuomingtang government of Sun Yat-Sen and his son-in-law, Chang-Kai-Shek.

Nor was this life free, unless freedom in the residue of poppy fields is free, a practice banned by the Maoists.

Mao had thoughts on everything and he lived 84 years, his latest in poor health, putting ideas down in his little book. Someone said hundreds of printing plants in China one time were committed to printing about 650 million of these "Thoughts" for everybody in China. At one time.

In a time of detente, which suddenly may change with new leaders, Mao's heinous decisions to obiliterate his enemies, not unlike Stalin or Hitler, are played down.

Life born is cheap life in China. This became known when Marco Polo discovered the great Chinese cities and the China Wall.

Ripley used to say that Wall would be the only man-made thing visible from the moon (Did the astronauts look?). Ripley used to say if Chinese , perhaps eight abreast, would march past a given point, like troops in review, they would never stop, they would never cease to pass that point.

For all the pragmatic decisions, Mao the poet-revolutionary dealt with this geometric progression since the Chinese Communists marched north in the 1930s to Manchuria. He came back south after World War II and forced Chang's Republic of China to abandon the Mainland for Taiwan, the island of Formosa.

Problems since have meant failure (putting millions to work making steel in open fields, attempting to break milleniums of tradition by forcemarching millions from one province to another) to success (emerging powerful enough to confront Russia on the world's longest contiguous border, feeding a generation through Mainland Communist stablization.)

Mao is formidable in oriental history, so little of which we Occidentals know or care about. Richard Nixon introduced us to this Mainland China when it seemed the Soviets and Chinese were amenable to diplomacy, to detente. China yet may be. Russia appears less to be.

Mao, the godless Buddha, the Red Confucius, smiled the inscrutable smile, shook the Nixon hand and exchanged ping-pong players, who were better than ours.

The history and culture of a China past piled high with the Maoist discipline of China present, all this he opened to Nixon and ceremonially to President Ford.

Not a hero of the West, not a hero perhaps even to a people who suffered to see his picture too often, to read his "Thoughts" to rote, but a hero Mao was in classic, cryptic Orientology.

Brinkley is right.

Even in government "poets know."

DUMPING PROBLEM for the county was discussed at Monday's Commissioners meeting. Here a county worker installs a new "No Dumping" sign while Commissioner Adolph Gresak, left, checks the trash for a clue as to who dumped what. Commissioners agreed that dumpers should be prosecuted. The problem is just across Elm Creek on the Silver City Road.

Commissioners Set Tax Rate, Approve $972,960 Budget

Milam County Commissioners set the tax rate at 95 cents, the same as in past years, and adopted a $972,960 budget which is $95,000 more than last year's, at a reguiar meeting Monday morning.

The budget amount does not include revenue sharing funds which are expected to total $156,000. The revenue sharing funds are divided among the four precinct road and bridge funds.

Curtis Hines, commissioner of Pct. 4, asked why his budget was down when costs keep going up and was told that money borrowed from the general road and bridge fund by his predecessor had to be repaid. County Judge O. B. Harden told Hines he would receive about $33,000 from revenue sharing.

In other business, commissioners heard Mrs. Imagene Rylander and Forrest Sapp of Cameron complain about rubbish being dumped on land across the Elm Creek Bridge on the Silver City road. Sapp said the sign forbidding dumping has been removed and when the creek overflows the trash washes on down on other people's property.

Commissioner Adolph Gresak said he would replace the sign and try to find out who is dumping so they can be prosecuted. Harden said notices were placed in the newspaper forbidding dumping along county roads.

Commissioner L. C. McKinney said plans for the storage shed to be constructed near the new county jail would be available for study at Thursday's meeting.

The court was presented a petition by Wilburn Beckhusen and Constable John Zajicek of Buckholts asking for a high-band radio for Zajicek's use. He said he is unable to call for help on his low-band radio as other law enforcement units use high -band.

Harden explained that the Criminal Justice Council, which had been paying 75 percent of the $1,184 cost of the radios, does not have any funds for the radios at this time. He said a representative of the Council would be in town Thursday and he would inquire then.

Beckhusen said the city of Buckholts would be willing to pay the 25 percent if a radio can be obtained.

The court will check into the cost of a historical marker for the old county jail which has been requested by the county historical commission.

Chubb Tells Trustees About Drug Problem

Cameron school trustees heard reports from principals Monday evening, and heard the high school principal discuss what he feels is a drug problem among a number of his students.

Jack Chubb, Yoe High principal, told trustees he has about ten or fifteen students who "are not going to make it." He said they are white students and possibly have a drug problem. He said indications include sleeping in class and in general being "weak" in other areas.

However, Chubb said it is not "a major problem yet," and he feels students are not hiding drug symptoms as they have in the past.

Chubb included praise in his report for students' attitudes at football games, and also praised the school's academic program which sees around 25 percent of college students graduating.

High school enrollment includes 151 freshmen, 150 sophomores, 111 juniors and 112 seniors. Chubb said the school had dropped Latin classes this year after only one student signed up for the class.

Ben Milam and Ada Henderson principal Bob Martin reported 60 students in kindergarten, 129 in first grade, 139 in second grade, 106 in third, 138 in fourth and 132 in fifth grade.

Martin said 18 students were in Plan A, 65 in speech therapy and 45 were migrant students.

He agreed with school board member Carol Barr about the traffic problem in the mornings and afternoons. He said he had asked the city to paint the children's walkway but so far the painting was not done. He said he had also asked for a police patroman to help with the traffic jams but so far had no action on the request.

O. J. Thomas principal Bill Huffman reported 139 students in sixth grade, 151 in seventh and 141 in eighth. He said the only problem he had was that of accomodating students who want to be in the band and also play football. Both are scheduled for the last period.

In other business, trustees sold a 1965 school bus to St. Monica Church for $1,900 and sold a 1968 bus to Texas School Bus Co. for $651.

Trustees also authorizes Supt. Buddy Dulin to obtain a time warrant for $15,000. The funds will be kept on hand in case of emergency or a drop in ADA, which would mean less state funds. Dulin said the school may not need the money, but it will be on hand if needed.

Board member Billy Hornung offered a resolution commending Rep. Dan Kubiak on his proposal of lowering the number of school days per year, and also recommended that a copy of the resolution be sent to Gov. Dolph Briscoe supporting the measure.

Betsy Brown asked if $200-plus was not too much money for the twirlers to spend on uniforms. She said the girls had no adult supervision in planning the uniforms and were spending at least $200 each plus the cost of making the outfits. Barr added that the cheerleaders had at least six different outfits, too.

Dulin said it has been his experience that the girls do not want to wear uniforms matching the band's. He said the girls could participate in fund-raising activities to help pay for the outfits.

Tax assessor - collector Theo Aschenbeck reported that 100 percent collection of school taxes would result in a total of $441,442 being collected. He also reported that his office is doing everything possible to collect $30,000 in delinquent taxes.

New Hours Set For Schools In Cameron

Schools will return to the regular schedule on Monday September 20, as approved by school board members Monday night.

Yoe High School classes will start at 8:30 a.m. and will be dismissed at 3:45 p.m. each day. Lunch period will be from 12:05 until 12:50.

O. J. Thomas Junior High classes will take in at 8:25 a.m. and will dismiss at 3:30 p.m. There will be two lunch periods -- one from 11:15 until 12:05 and the other from 12:05 until 12:45 p.m.

The first bell will ring at 8:25 a.m. at Ada Henderson school with the tardy bell at 8:30. Students may enter the building at 8 a.m. and go to their home rooms.

Third grade will have lunch between 11:15 and 12:20 and fourth and fifth will have lunch between 11:30 and 12:20.

Town students at Ada Henderson and Ben Milam will be dismissed at 3 p.m. with buses loading at 3:35 at Ben Milam and 3:45 at Ada Henderson.

Lunch periods for Ben Milam will be: kindergarten from 10:45; first grade from 11 to 12, and second grade from 11:15 until 12.

TP&L Plans Lignite Unit

Texas Power and Light Company announced Tuesday it will construct a 545,000-net kilowatt, lignite-fueled electric generating unit at Aluminum Company of America's Sandow Power Plant near Rockdale.

The present three-unit power station is owned by Alcoa and operated by an affiliate of TP&L, Industrial Generating Company. The new unit will be totally owned by TP&L.

Lignite to operate the unit will come from existing reserves owned by Alcoa in Milam and Lee Counties. Alcoa has equipment on order and plans to more than double its present lignite mining rate.

Power generated by the new unit, which will be a part of the TP&L integrated system, will be used by Alcoa and also by TP&L for customers in its 51-county service area.

Approximately 500 construction workers will be needed for the multi-million dollar power plant expansion. TP&L officials said the number of permanent employees will increase substantially because of the new generating unit and accelerated lignite mining at the Sandow power complex.

Power plant construction is expected to begin in 1977, with completion scheduled for early 1981. TP&L said that Brown and Root, Inc., is the architect-engineer for the project.

The new unit will include major expenditures for required pollution-abatement equipment, it was disclosed.

Alcoa Lake, an 860 - acre man-made reservoir adjacent to the works, will be enlarged to provide greater cooling water capacity for the power plant, according to Alcoa officials who noted that the lake's water level will be raised one foot. They said a new and longer canal between the power station's warm water discharge basin and the northeast corner of Alcoa Lake will be dug to more effectively utilize the reservoir's cooling capacity.

Alcoa, which began producing primary aluminum at Rockdale Works in 1952, placed orders two years ago for equipment to enlarge its lignite mining operation. The project involves upgrading existing equipment for handling lignite. Alcoa officials said this includes two new 95-yard draglines, coal-hauling vehicles, conveyor systems and shovels -- all of which will be operational in 1979 and 1980.

Alcoa officials said its land reclamation program will be adjusted progressively to keep pace with the accelerated rate of lignite mining. The company has experimented for some 15 years with land restoration, including regrading and replanting grasses and trees. Since 1971, Alcoa has engaged in full-scale land reclamation at Rockdale and presently restores 10 to 20 percent more land than it mines annually, according to company sources.

So far, approximately 700 acres of mined-out property have been contoured, chemically neutralized, fertilized and covered by or sprigged with Coastal Bermuda grass. Hundreds of pine trees have also been planted in the reclaimed area.

TP&L's IGC affiliate and Alcoa employ about 2,000 people at the power plant, lignite mines and aluminum smelter. The annual combined payroll is approximately $30 million.

Museum Security Main Topic For Tuesday Meeting

Security for exhibits in the proposed county museum was one of the main topics discussed Tuesday afternoon when the Milam County Historical Museum Association met.

It was agreed that protective bars across the lower windows are necessary to prevent breakins. Jim Lafferty, chairman of the building committee, said there are six barred doors upstairs in the jail that could be used to cover some of the windows.

Ada Margaret Smith, chairman of exhibits, said people are hesitating to donate items until the building is secure. She reported that she has a roomful of furniture, a doll collection and a collection of Indian artifacts for display.

Mary Belle Batte, Association chairman, said there is a problem in soliciting help from Rockdale--that the residents think the museum will be only for Cameron. It was emphasized that the museum is a countywide project and needs all the help it can get.

Green Thumb workers have painted the downstairs rooms and a new roof is being put on. Leaking windows have also been repaired.

It was voted to accept the offer by the Perrin family in Cameron for a flag pole for the front of the building in memory of E. A. Perrin.

The association agreed to wait until the youth exposition fund drive is over before beginning to solicit funds from the public.

Patrol Reports

The Texas Highway Patrol investigated 26 accidents on highways in Milam County during August, according to Sergeant Fred Hurst, supervisor for the area.

The accidents recorded no deaths and ten injured in August.

This makes a total of 166 accidents with six deaths and 80 injured in Milam County during 1976.

Where Milam Belongs...

Construction on a 545,000 -net kilowatt electric generating unit is scheduled at generator site at Alcoa's Sandow powerplant.

Put off a year, the announcement varies only in that Texas Power & Light Co. is constructing this unit adjacent to existing units, providing power for Alcoa and other utility customers.

Work is to begin in mid-1977, a four-year project for some 500 construction workers. Influx of people into the Rockdale - Milam area would approximate 1500.

A permanent staff of 150 additional people will operate the lignite - fueled generator after phasing in by 1981, officials advise.

This is, of course, another major development in the economic and social movement of Milam County.

Ahead of actual lignite mining by Shell, following Alcoa's announcement of a reopening of the last potline down at Rockdale Works and in tandem with growth developments across the community spectrum in Cameron, Milam County is heading into an era measureable only by the post-Civil War era of the 1880s and 1890s when cotton and new population flourished.

We are proud to say, "mighty proud to say it."

This generation of Milam Countians, this generation of builders is leading nonmetro Central Texas into today, where it belongs.

Discipline Vs. Desire...

TO QUOTE Prof. Neil Harris, of the University of Chicago, on "Survival of Individualism:"

It is difficult, of course, in a world of credit cards, telephone numbers, and finger prints for individualism as anonymity to survive. But as most Americans adjust to this kingdom of digits and ciphers, they still cling to older notions of personal sovreignty. A significant American art form--the Western-- indulges this continuing admiration for personal heroism and the exploits of the self-sufficient individual.

Is individualism likely to flourish in a world increasingly dominated by complex public institutions? Will the placing of limits on wills and action actually increase chances for variety and personal fulfillment? Born in a colonial revolution, America defined its freedoms outside the rituals, structures and formalities of traditional societies. The question today is whether social discipline and individual desire can still co-exist creatively in the American republic of 1976-- and beyond.

-END OF QUOTE.

"Low Down" FROM THE Congressional Record

By JOE CRUMP

(A Column for Readers Who Haven't Time to Review the Congressional Record Daily)

U. S. POSTAL SERVICE VS. UNITED PARCEL SERVICE

Rep. Philip M. Crane (Ill.) ". . .Let us imagine that there are two companies competing in the parcel post delivery system. Company A operates a private efficient well run fiscally sound and profitable system. Company B is subsidized by the government, fiscally unsound, inefficient, and less than dependable. "You are given a choice as to which company will deliver your packages. Well, if you are the U. S. Government you will probably choose the private company A over the Government's B to deliver your packages. Why? The Government Service Administration (GSA), the U. S. Housekeeping agency, can tell you. GSA has been charged, and in fact, prefers to use the less expensive, private commercial parcel carriers such as United Parcel Service.

"I would like to share the following article with my colleagues, that appeared in the Washington Post. . ." (The condensed article follows):

UPS TooSuccessful, Rate Hike Trimmed
By Stephen M. Aug

United Parcel Service operates such an efficient well run profitable system that it is unable to win a 5 percent rate increase from the Interstate Commerce Commission.

A three-commissioner board decided unanimously the other day that UPS, which operates a nationwide small package delivery service is entitled to a rate increase of only 3 percent.

In rejecting the UPS request for 5 percent, the ICC said not only does the company need a increase, but because it has no competition, "regulatory restraints become even more essential."

.....

CRUMP'S GRASS ROOTS COMMENT

The U. S. Postal Service and the United Parcel Service cannot be fairly compared.

When a rate hike for First Class mail is requested, the TV news commentators and some congressmen slyly avoid mentioning the unprofitable services the U. S. Postal Service is, by law, forced to perform for the public. They include General Delivery; Money Orders; Small sales of postage stamps and the sale of Food Stamps. They are also saddled with the operation of tiny high cost rural post offices. The same congressmen who deplore the Postal deficit resist the closing of these unprofitable post offices. The public is not ready for the efficient operation demanded by competitive business.

OLD PHILOSOPHER

Dear editor:

I don't want to throw cold water on the Presidential campaign, right when the debates are about to be held, but it's possible that whichever candidate is elected, Ford or Carter, neither will be allowed to serve.

The Supreme Court may throw out the election, on the grounds that the Equal Opportunity law has been violated.

The truth of the matter is the American voters are not equal opportunity employers when it comes to hiring a President. They systematically exclude women.

I can see the Supreme Court now saying, "Oh, at the first it might have been just a happenstance that only men were chosen as President, certainly it was all right and within the law to select Washington and Jefferson, and Adams, but you stretch the pattern out for 200 years, with one man after another being selected and not one woman, and equal opportunity becomes a joke. It's sex discrimination if we ever saw it. E. Pluribus Unum and Pro Bono."

I'm not a lawyer, if a Watergate bum is entitled to go to jail I wouldn't stand in the way, but you know it's bound to dawn on some smart women that the law is on their side when you review the long history of one man after another getting named President and never a woman. I look for a suit to be filed before long.

All right, say the suit is filed and it gets to the Supreme Court. You know it's going to dawn on some ultra-smart women that, hold on a minute, there's no woman on the Supreme Court either and never has been. The Supreme Court itself is in violation of the Equal Opportunity law.

At this point the thing gets so confusing I don't want to think about it any more. I'm sorry I brought it up.

Yours faithfully,
J. A.

Dateline Austin

Reliance On Federal Aid Shown

Texas state and local governments are becomming increasingly reliant on federal aid, Comptroller Bob Bullock reported in a recent study.

Federal aid is now running about a fourth of all total revenue received by state government.

The study showed more than $2.2 billion was received by Texas units of government in 1975.

The figure has been increasing about 15 per cent a year, but the increase slowed to 3.5 per cent and 3.4 per cent in 1974 and 1975.

Texas, which ranked fifth in total federal aid among the states, ranks 47th in per capita receipts.

For every dollar Texas contributes in individual federal income taxes to finance federal aid programs, it gets back 82 cents in federal aid, according to Bullock's findings.

Connally On Job

Former Texas Gov. John Connally stepped in as head of the President Ford campaign in Texas after turning down national campaign assignments.

Connally said he expects an aggressive effort in the state, and thinks Ford can win by pinning down Democrat nominee Jimmy Carter on the issues.

A Texans for Ford organization also is forming to wage a particular appeal to independent and conservative Democratic voters.

State Rep. Ray Hutchison of Dallas is expected to be Connally's right-hand man in the state campaign organization.

AG Opinions

Governor's Office Education Resources data on school district taxable property values is open to public disclosure, though unedited and not checked for accuracy, Atty. Gen. John Hill held

In other recent opinions, Hill decided:

Board of Mental Health and Mental Retardation does not have power to adopt a policy giving its state-paid physicians authority to carry on private medical practice at MHMR facilities.

Authority given Harris County commissioners to regulate private water company rates was replaced by the Texas Public Utilities Commission.

Travel records of certain state auditors relating to an investigation are excepted from public disclosure.

Carter Leading

A new poll by an Austin-based market research firm found Jimmy Carter-Walter Mondale leading Gerald Ford-Robert Dole substantially in Texas

The Henson-Hopkins survey of 400 voters in 126 counties showed 51 per cent favored or leaned toward Carter-Mondale to 38 per cent for Ford-Dole. Seven per cent recorded undecided, three per cent declined to answer, and one percent said they would not vote for either.

Voters under 35 showed stronger support than older ones polled.

In spite of the indicated preference for Carter-Mondale, 48 per cent of Texas voters rate themselves conservative, 38 per cent say they are moderates, and only 11 per cent give themselves the liberal label.

Among voters under 35, just 35 per cent say they are Democrats, and 44 per cent indentify themselves as independents without party identification. Eighteen per cent state they are Republican.

Industry Honored

Four Texas industries and sponsoring chambers of Commerce were honored as recipients of the Governor's Industrial Expansion Awards here last week.

Recognized for contributions to civic and community development and industrial expansion were Aberdeen Manufacturing Inc. of Kaufmann, Carlingswitch Inc. of Brownsville, Union Carbide Corporation of Seadrift and Ludlum Measurements Inc. of Sweetwater.

Gov. Dolph Briscoe, Texas Industrial Commission, Texas Industrial Development Council, Texas Association of Business and four regional chambers of commerce sponsored the awards contest.

Short Snorts

State Insurance Board Chairman Joe Christie has called on Secretary of Transportation William T. Coleman to adopt pending air bag standards

This ad is for people who didn't read the last ad about holding down their gas bills, and wish they had.

(Please, read it this time.)

We all have to face facts: the days of cheap energy are over. Gas bills have been going up. That's why we've been telling our customers how to hold their bills to a minimum.

A lot of people are already using gas more wisely. If you are one of them, read on just in case you've missed a tip or two.

If you are not one of them, this is the time to start. Here's how:

Get out of hot water. Hot water is one of the biggest and most expensive energy users in the home. A shorter, not-quite-so-hot shower helps save money. A dripping hot-water faucet is a bandit.

The same is true in the kitchen and laundry room. Wash only full loads in the dishwasher. Wash and dry only full loads of clothes. Don't overdry. It makes clothes harsh and stiff and wastes fuel.

Speaking of the kitchen, you can save gas by planning oven meals around dishes that can be cooked at the same temperature. When using top burners, tailor the flame to fit the pan.

Get your house in order. Make sure you have six inches of insulation in the attic. And check regularly to make sure it hasn't settled. Make sure your exterior walls are insulated. Check the weather stripping around doors and windows, and make sure they stay closed when the heating or air conditioning is on.

No single one of these tips will save you an immense amount of money, but each one helps a little. Add all those little savings up, and it could make a big difference.

Farm and City

Page 4 Cameron, Texas, Heald, September 16, 1976

Farm·facts

A Weekly Report Of Agri-Business News

Compiled From Sources Of The
TEXAS DEPARTMENT OF AGRICULTURE
John C. White, Commissioner

Farm Prices Faltering . . . Rice Aplenty . . . Meat Production Shows Gain.

Texas agricultural producers already know it, and the Texas Crop and Livestock Reporting Service confirms the farm price slump in its recent report: the average prices received in Texas for all crops decreased 7 per cent during the month of August. Livestock prices were down 1 per cent.

Parity now stands at 71; a year ago it was 78; even a month ago parity was at 73.

Lower prices for potatoes, fresh market vegetables, feed grains and hay contributed most to the decrease in crops. Lower prices were also noted for meat animals and broilers. Dairy products and eggs did show some increases.

But only one commodity--oats--is above parity.

In major grain prices, wheat slipped to an average $3.05 per bushel compared to $3.51 a month ago and $3.77 a year ago. Wheat parity is $4.90 per bushel.

Grain sorghum averaged $4.02 per hundredweight compared to $4.54 a month ago, and $4.67 a year ago. Parity is $5.50.

Corn averaged $2.74 per bushel; a year ago the farm price was $3.08; parity is $3.29.

Cotton is one exception to the farm price slide, but it, too, has had its problems. As of the middle of August, cotton in Texas averaged 61 cents per pound; this is down 9 cents from a month ago, but it is 23 cents per pound above a year ago.

A LOOK AT LIVESTOCK tells the same dismal story. Beef cattle averaged $31.80 per hundredweight; parity is $57.30. Calf prices averaged $34.70; parity is $67.60. Even hogs are slipping. Hog prices averaged $40.90; this compares with $44.30 a month ago and $54.70 a year ago. Parity is $52.70.

Egg prices were up about 6 cents a dozen from a month ago, but are still about 9 cents a dozen under parity.

ROUGH RICE STOCKS in all storage positions in the state as of August 1 are projected at a record 12,705,000 hundredweight. This compares with 577,000 hundredweight of rice in storage a year ago.

Milled rice stocks in all storage positions totaled 1,084,000 hundredweight compared with only 445,000 hundredweight a year ago.

Nationwide, rough rice stocks are a record 31.4 million hundredweight. This compares with only 4 million a year ago and two years ago.

Milled rice stocks totaled 3.9 million hundredweight. This is 80 per cent above a year ago, and is the largest since 1959.

RED MEAT PRODUCTION IN TEXAS during July compared to a year ago showed an 18 per cent increase. For the first seven months of this year, red meat production totaled 2,003,000 pounds compared with 1,637,000 pounds a year ago.

Nationwide, commercial production of red meat totaled more than 3 billion pounds, which is 7 per cent more than a year ago.

In Texas, cattle slaughtered during the month was 77,000 more than a month ago; the calf kill, however, was 24,500 head below a year ago.

Hog slaughter was down 9,500 head and sheep and lambs killed represented a drop of 38,000 head from a year ago.

SHEEP AND LAMB FEEDING in Texas is again on the decline. As of Aug. 1, Texas drylot sheep feeders with a capacity of 2,000 head or more had 80,000 sheep and lambs on feed for slaughter. This is four per cent below the same month a year ago and is 12 per cent below a month ago.

Current intentions to market the 80,000 head are: August - 39,000, September - 32,000, and October - 9,000. September and October intentions are incomplete since additional lambs could still be placed on feed and marketed during these months.

Exemption May Lower Farm Taxes

COLLEGE STATION

A recent Texas Supreme Court decision could save part-time farmers and ranchers many tax dollars, says an economist with the Texas Agricultural Extension Service.

"The court held that farmer and rancher s may qualify for agricultural tax exemptions on farm real estate even though they earn more than half their income from other sources," notes Dr. Wayne Havenga. "Thus, the court relaxes eligibility requirements imposed in an earlier ruling."

The big impact will be in counties that have many part time or low income farmers who could not previously qualify for the exemption.

The Texas Constitution provides that the owner of a farm or ranch may request an "agricultural use" valuation for the property if it is his "primary occupation and source of income," points out Hayenga.

This valuation is based on the productive value of the land, which i s often less than the market value generall y used for computing tax payments.

"The state Supreme Court ruled earlier that a property owner must show that his farm or ranch income was greater than his combined income from all other sources. But, based on opinion by Associate Justice Price Daniel, the court changed the requirement to make it easlier for owners to qualify for the exemption," says the Texas A&M University System specialist.

Daniel wrote. . ."It is sufficient if the landowner shows that he devotes a greater amount of time to his agricultural business than to any other occupation or businesses and that he receives more gross income from his agricultural business. . ."

This ruling will help farm and ranch owners who get income from a variety of sources, such as business investments, royalty payments and other jobs, but who spend a majority of their time on the farm, points out Hayenga.

County Agents Notes

Interest Grows In Old Crop

By Bill McCutchen

Everywhere you go now you hear renewed interest in corn as cash crop. Several things have brought this about.

These factors include greenbug and midge problems in grain sorghum, but more than this is increased production on the high plains, new varieties promising higher yields, and not at all the least of which is the fact that seed Johnsongrass can successfully be controlled in corn. Control in grain sorghu m is erradic at best.

Dr. Dave Weaver, Extension weed control specialist tells me that "Eradicane" has given very good seed Johnsongrass control in corn in all of their work to date. Eradicane is an incorporated material and as such requires equipment and labor to work it into the soil.

This plus the fact that the material needs to be incorporated within two weeks or so of planting have to be considered distinct disadvantages for the product even though grass control is good and constant.

Another material that we have had considerable experience with in other crops is also a good material for seed Johnsongrass control in corn. This material is Lasso. It gives very good seed Johnsongrass control in corn or other crops when activated by rainfall. Control, of course, depends on activiation by rainfall, but it has advantages as it can be banded at planting time.

Three quarters of an inch of rain or more within a couple of weeks of planting will usually activate the material and give good control of seed Johnsongrass and other grasses.

Several hybrid seed companies are claiming some real progress in hybrid corns and I have heard some fantastic yields from seed companies and farmers alike. It might be worth looking into and I plan to take a look at some in demonstration work next year.

Corn is a crop that most farmers in this area have been accustomed to in the past so it is not a new crop but it could be one that we might want to rejuvenate.

Armyworms

You will recall that back in June and July we had an outbreak of the fall armyworms. Well, there are a lot of armyworms still around and farmers, ranchers, and others with lush, tender bermuda pastures and more particularly those planting small grains should keep a close watch at this pest.

Shelby Smith of Milano says they are having armyworm problems in bermuda now.

Future Uncertain For Feeders

Producers thinking of holding onto their feeder cattle may want to take a closer look at the market situation, at least for the remainder of 1976. Things aren't too bright, according to one authority, Dr. Ed Uvacek, livestock marketing specialist for the Texas Agricultural Extension Service.

His analysis comes after an extensive trip through cattle country, the Corn Belt and visits with several feedlot managers.

"I look for feeder prices to weaken into the fall and winter for a number of reasons," says Uvacek. "Among these are the continued weakness in fed cattle prices, big feedlot losses, no major drop in sight for feedgrain prices, a big supply of feeders still available, and more competition from other meats, such as pork and broilers."

Feeder prices this fall and winter will have a big effect on the overall cattle industry, believes the Texas A&M University System specialist. They will determine the extent of cow liquidation, the number of feeders held over into 1977, and the feedlot profitability for the first half of next year.

Uvacek sees this situation developing in the months ahead: "Choice feeder steers in the 600-700 pound range will likely move to the low $30's by October. Many feeder animals will move to slaughter during this period. Some price gains could then result as we move into the winter months

THESE FIRMS AND INDIVIDUALS ARE SEASON LONG YOEMEN SUPPORTERS

Yoe Frosh And JV Score Wins

In the first games of the season for the Yoe High freshmen and junior varsity teams ended in double victories for the Yoe squads.

The Yoe freshmen defeated the LaGrange Leopards 20-7, followed by a JV victory of 14-7.

In the freshmen game the young Yoemen had to come from behind to win the game when the Leopard scored in the closing minutes of the first quarter.

LaGrange scored off an option play and took the lead. The one point conversion followed and the Leopards had a 7-0 lead.

Late in the second quarter the young Yoemen started a drive from their own 45 yard line. With a combination of the running attack of Dennis Rosemond and the passing attack of quarterback Dow Dodd and Tim Mitchan the Yoemen drew within scoring distance.

With 2:10 remaining in the half Dow Dodd scored on a quarterback sneak. A two point conversion try from Dodd to Terry Lowe failed and the Leopards remained in command 7-6.

The young Yoemen received the kick off after half and on the second play fumbled and gave LaGrange excellent field position.

Yoe defense was able to halt the Leopards on downs and took over on their own 30.

Yoe drove from the 70 yard distance and on an off tackle run by James McLerran the young Yoemen took over the lead with 6:13 in the 3rd quarter. McClaren dashed through the Leopard defense from 5 yards out. The 2 point conversion again filed and the Yoemen led 12-7.

On a drive that started on the 40 yard line the young Yoemen were able to increase their lead on a halfback pass from Rosemond to wingback Chris Riola.

Riola was laying on his back in the end zone and was able to salvage the pass. play for six points. On the extra-point Peter Riola took a hand off from Dennis Rosemond on a reserve that culminated in the first successful point conversion.

According to freshman coach Ken Poole the entire defensive team had an outstanding night. Included in the spotlight were Terry Lowe, Greg Landmark, Ray Morrow, James McClaren, and Mark Heitman. In the defensive secondary Dow Dodd did an outstanding job.

In the JV game the Yoe squad dominated the game until the final :27 when the Leopards scored their only touchdown.

From the opening kickoff the JV had command as they marched the ball to the Leopard 20 and found a tough defense to thwart their scoring threat.

In the second quarter the Yoe JV was able to score on a 40 yard pass from quarterback Edward Steamer to Edward Johnson. The extra point attempt failed by David Rinn and the Yoe JV took a 6-0 lead.

Only two plays later Yoe defensive player Ronnie Orsag grabbed a Leopard pass and ran 30 yards to put six more points on the Yoe side of the scoreboard. Billy Pittmon scored on the 2 pont conversion try when he took a reserve play around the end. The Yoe JV secured a 14-0 lead before half time.

Throughout the third and fourth quarters it was a defensive struggle with the Yoe JV containing all hopes of a Leopard scoring threat.

The Leopards were able to get off three running plays within 3 seconds and with time ticking off slowly the Leopard JV scored on a third down play from one yard out.

Yoemen Face Powerful Belton Tigers Friday

The Big Red machine of Belton continues to march on with 2 victories under their belts going into the third pre - district game against the Yoemen at Tiger Field, Friday night.

Belton returns 18 letterman from the '75 zone co-championship team with 9 of the returnees being in their defense.

Belton is proud of their famous 5-3 defense and it long been a source of pride for the 3 A powerhouse. In this season the Big Red defense hasn't given up a single point in their first 2 outings against Marlin and Gatesville.

Defense is only half of the battle for the Tigers, and with the offensive punch provided by running back David Kelley the Tigers have established an awesome football team.

Little change has occurred in the Belton offense- defense since they proudly return 22 seniors to this season's squad. The offense will again run from the Power I and from the Straight T and Wing T formations.

According to head coach Ed Cauley the Tigers will put a lot of people in motion from these offensive formations.

As in the years past the Tigers have good size with the offensive line weighing in at 199 pounds per player. The offensive backfield will tip the scales at 172.

Their defensive line will also hold a weight advantage over the Yoemen weighing in at 188 pounds per-man. The defensive secondary will line up 165 pounds against the Yoe offense.

Some of the familiar names of last year that will return as seniors will be Lee Lingo, the aggressive tackle. Linebacker Bobby Tulloch and Joe Whitley will add stability to the Tiger that really doesn't need a great deal of stablizing.

Belton is picked to dominate their zone and then into the district championship game. Although they haven't been rated in the Top 10 of the 3A ranks they have the material to have more than just a District championship team.

Yoe Fems Place 2nd In A&M Tourney

Yoe High volleyball girls wrapped up their first tournament finishing in second place behind a vicious Humble team. The Yoe girls won their Friday game against Lexington and then won an early morning game against Navosota to advance to the finals.

In the finals the Yoettes faced the big 3A Humble team that plays volleyball year round.

In the first game of the finals the Yoe girls went down in defeat, 9-15. In the second game Humble again used their effective spiking game to down the Yoettes 15-6.

Janet Angell was high point server for the Yoettes and placed away 7 points in the final game.

Early Saturday morning the Yoettes faced Navosota in the semi-finals. In the first game the Yoettes toed the serving line and won 15-11.

The Yoettes determined to end the 2-3 series in only two games used their spiking game to end the game, 15-6.

Carole Morris toed the service line and ended up high point server with 10 points. Debra Fleming followed closely behind with 9.

In the first game of the tourney the Yoe girls traveled to A&M Consolidated Friday and faced a well-rounded team from Lexington.

Ending the match play with only two games the Yoettes defeated Lexington in the first game 15-7.

Going back to back with wins the Yoe fems behind the effective serving of Evelyn Pittman won 15-4 to end the match.

Kim Fritz followed the high scoring of Evelyn Pittmon with 7 service points.

The Yoettes will continue pre-district play and according to Yoe girls coach Linda Puckett the Yoe girls are improving and should be in contention when they enter district play.

FORREST GUESS

RHS #1. . .

Images of RHS #1 were seen by fans at the Cameron LaGrange showdown Friday night at Yoe Field.

This is the second year in a row that I have seen a RHS on the Yoe Field.

The immature children that involve themselves in such petty activities lack pride in their own school.

No one knows who did it except those who were directly involved.

I remember the old saying, "Fools names and faces are seen in public places."

Need there be further explanations? Yes.

The 'kids" that do these things don't stop to think of how hard the administrators and coaches from each school work in order to have a happy and pleasant relationship.

Rockdale's Principal Harold Chaffin and Yoe High Principal Jack Chubb have worked with one another in bringing harmony to the Milam County rivals.

One act like this can destroy all the work of these people.

Here's hoping that it doesn't strain the relationship and that both schools will show equal concern for these type activities.

LOOKING AHEAD. . .

Looking to the past has never gotten anyone forward. The Yoemen have suffered 2 heartbreakers the past two weeks.

You could say the Yoemen should have been 2-0. But it's that "should have been" instead of it is.

Pre-district games are designed to ready yourself for battles ahead. And if the Yoemen are learning from their past games they should have a sound foundation built.

They have been pitting themselves against the best. LaGrange retained their tough interior line from the state championship team and remain much in contention for their district title.

The big news is, of course, about the Rockdale-Taylor game.

Taylor wasn't able to stimulate any kind of offense against the powerful Tigers. But neither were the Ducks able to generate an offensive attack against the Yoemen.

The difference being in the Tiger offense. The Tigers maintained their explosive offense from the post-season play in the 3A ranks.

With all speculation, the Milam County rivals still holds a mystery. With the Tigers downing the Ducks and with a 2-0 record they have gained an edge over the Yoemen.

But as everyone knows in the Yoe-Tiger battle it takes more than an edge to be a winner.

CAULEY SAID. . .

"Out of 29 players, Belton has 22 seniors and have returned a good outfit from last season.

"Big Red has good size and they have just about everyone back from last season.

"We cannot line up and go nose to nose with them. We are going to have to play sound defense and we must not continue to make mistakes.

"They will try to intimidate you into making the mental mistakes. Belton will take a few 15 yard penalties to shake up and to try and make you make mistakes.

"One of the most important things for us to do is to play good defense. We had to play good defense last year to be able to beat them and it's vital this season.

"We must have patience with them and not get in a hurry to play their type of game. They depend on their defense to beat you. They will try to keep pushing you further back in a hole and then have a short go with their offense.

"We are hoping that our kicking game can hold up and that we can eliminate our mistakes.

"In our past games our mistakes are what continue to hold us back more than does our opponents.

"They are mistakes that you make from going full speed and giving everything you have. Our kids aren't afraid of them and I think we are going to do a good job."

Yes. It costs more to enjoy them today...

but from sun-up to sign-off (and all night, too), you get a lot for your electric dollar.

Even with today's higher electric rates . . . made necessary by the increasing costs of generating plants, fuel, equipment and other expenses . . . there are few things that give you as much for your money as electricity.

Hour after hour, day after day, electricity is at work in the home, on the farm, in businesses and industries and stores and schools, doing thousands of tasks and making your life easier, more comfortable and more enjoyable.

Add up the ways you use and benefit from electricity. Compare them with your cost. Isn't electricity still one of the best buys in your family budget?

DAVID ROSEMOND

David Rosemond will be going both ways for the Yoemen this season, starting at offensive tailback and defensive halfback.

Rosemond is a 17-year old junior at Yoe High and will be wearing jersey #22. Rosemond stands 5'4" and weighs in at 137.

David has played football since the 8th grade. His athletic honors include Honorable Mention, All District Offensive and Defensive pick in 1975, and has been picked by his fellow team mates as one of the tri-captains for this season.

Rosemond lists Ohio State as his favorite college team while his pro pick is the Dallas Cowboys.

David is the son of Mrs. Bessie Rosemond of Rt. 2, Cameron.

When asked his opinion of this year's fighting Yoemen David stated, "We are a strong, quick team with good receivers and a swift backfield. We'll give every opponent a fight to the finish."

BRIAN WILKINSON

Brian Wilkinson, a 17-year-old senior, will be starting at the defensive linebacker position for the Cameron Yoemen this season. Wilkinson will also see action in the offensive fullback position. He has participated in football since the 7th grade.

Wilkinson will be wearing jersey #44 and is the son of Mr. and Mrs. James A. Wilkinson of 1607 N. Hoover in Cameron. He stands 6'4" and weighs in at 220.

Last season Brian was an all district pick while also participating in basketball, baseball, and track. Brian is also active in the Student Council, Spanish Club, Fellowship of Christian Athletes, Jr. Historians, and the National Honor Society.

Wilkinson sites Texas A&M as his favorite college team and goes with the Dallas Cowboys as his favorite pro pick.

When asked about future plans, Brian states that he intends to attend college after high school and study mechanical engineering.

Ministers To Hear Food Policy

Ministers from throughout Texas will gather on the Texas A&M University campus Sept. 30-Oct. 1 to hear talks dealing with this nation's food policy.

The occasion is the 31st Town and Country Church Conference which is designed to familiarize the clergy and lay leaders in towns and cities under 10,000 population with national and international issues that impact on the role of the church in today's world.

The conference will be at the Rudder Center, with the first session beginning at 8:45 a.m.

The principal topic of the conference this year will be to examine the "United States Food Policy in a Hungry World," points out Jack Jones, resource development specialist for the Texas Agricultural Extension Service.

Today's ministers are concerned about how U. S. food production might be used more effect.vely for a hungry world, notes Jones. Speakers will examine problems requring a U. S. food policy, determine how the problem of food policy and world hunger can be resolved, and evaluate proposed changes and their implictions.

Speaking on the food policy issue will be Dr. Ron Knutson, Extension economist in policy and marketing. Moral issues of food policy will be addressed by A. Russel Stevenson of the Agricultural Development Council of New York.

Another topic of interest to smaller towns and cities will be how they can maintain the current status of their doctors and their hospitals and continue to serve their rural constituents, points out Jones. Dr. Ralph C. Gorden, director of the Department of Family and Clinical Medicine at Texas A&M University, will address this subject.

A highlight of the conference will be the presentation of the Rural Minister of the Year at the final session Oct. 1.

Individuals who wish to pre-register for the Town and Country Church Conference should write Dr. Ernest E. Davis, Texas Agricultural Extension Service, Texas A&M University, Room 5, Agriculture Building, College Station, TX 77843.

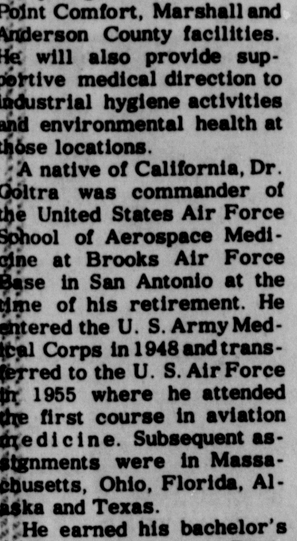
Alcoa Medic Named Area Director

Dr. Evan R. Goltra, medical director of Aluminum Company of America's Rockdale Works, has been named Texas area medical director with responsibilities for Alcoa's four operating locations. In announcing the move, Alcoa Texas area manager Fred P. Bergeron said Dr. Goltra will continue to headquarter at Rockdale.

Dr. Goltra, who retired in 1975 as a colonel after 27 years Air Force service, will continue serving the Rockdale plant and will provide direction to employee medinal programs at Alcoa's Point Comfort, Marshall and Anderson County facilities. He will also provide supportive medical direction to industrial hygiene activities and environmental health at those locations.

A native of California, Dr. Goltra was commander of the United States Air Force School of Aerospace Medicine at Brooks Air Force Base in San Antonio at the time of his retirement. He entered the U. S. Army Medical Corps in 1948 and transferred to the U. S. Air Force in 1955 where he attended the first course in aviation medicine. Subsequent assignments were in Massachusetts, Ohio, Florida, Alaska and Texas.

He earned his bachelor's degree in 1943 from Dartmouth College in New Hampshire and his doctor of medicine degree from Long Island University in New York in 1947. He is also a graduate of Harvard School of Public Health in Boston and served as intern and resident in internal medicine at Grace Hospital in New Haven, Conn., prior to beginning his military career.



DR. EVAN GOLTRA

OBITUARY

Ireland

Funeral for Henry Carl Ireland, 72, of Cameron was at 3 p.m. Tuesday in the Green Funeral Home in Cameron.

The Rev. Ernest Helsley officiated and Masonic graveside services were at Little River Cemetery in Maysfield.

Mr. Ireland died Sunday in Waco hospital after a short illness. He was a retired employee of the U. S. Postal Transportation Service and a life member of the Royal Select Masters and Royal Arch Masons of Texas. Mr. Ireland moved to Milam County three years ago.

Surviving are his widow, Mrs. H. C. Ireland of Cameron; two daughters, Mrs. Carol Smith of Austin and Mrs. Joy Belle Young of Houston; four sisters, Mrs. Ruby Massengale of Cameron, Mrs. Hazel Peel of Mt. Pleasant, Mrs. Dixie Broughton of Smithville and Mrs. Kathleen Hollingsworth of Austin; three grandchildren and two great grandchildren.

Buckholts Brethren Activities

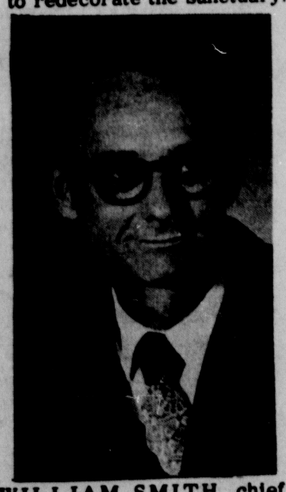
The Buckholts Brethren Church will observe a "Homecoming" Sunday, September 26. All members, as well as former members and friends of the church, are invited.

This will be a special event for the church as it also marks the 25th anniversary of the present church building. Each family planning to attend is asked to bring a covered dish for the evening meal, which starts at 4:30 p.m.

Ministeral student, Larry Koslovsky of Temple, will deliver the sermon Sunday morning in the absence of Rev. W. John Baletka. Larry is a student at Southwestern University in Georgetown.

Mrs. Rene Raney, Mrs. Marcella Jurca, and Mrs. Louise Glaser were visitors at the Day Fellowship Service. Following the showing of slides by Pastor Maly, refreshments were served.

In other church developments, plans are being made to redecorate the sanctuary.



WILLIAM SMITH, chief mechanical engineer at Aluminum Company of America's Rockdale Works, has been inducted into Alcoa's 25-year club. He becomes the 35th local member of the company-wide organization composed of 24,000 Alcoans.

Luke
15: 1-10
Tuesday
Luke
15: 11-32
Wednesday
II Samuel
12: 1-14
Thursday
II Kings
7: 3-11
Friday
II Chronicles
7: 12-22
Saturday
II Chronicles
36: 11-21

The wheels are turning . . . those mental wheels . . . and the emotional ones, too—that in this "computer age" solve the equations of romance.

And like any computer the teen-age mind operates the way it has been programmed. Already he has some firm ideas about girls, and she equally firm ideas about boys. Each knows the kind of person he likes, the kind of character he respects, the kind of relationship he considers worthwhile.

Of course, the immediate question is whether to date. But the deeper question, of serious concern to their parents and to their own future: what *standards*, *what principles*, what *convictions* will they bring with them on a date?

That part of the programming, Parent, is largely your responsibility. And only YOUR CHURCH can effectively share it with you!

Happening about town

Patti Mikulec, Area Editor

PRESENTS COMPOTE--Mrs. Vernon L. Conner, president of the National Council of State Garden Clubs, Inc., registers a smile of approval as she presents the "Disciples of Democracy" Compote that is being issued as an official commemorative for the bicentennial of the United States. This "Disciples of Democracy" Commemorative Compote is available exclusively through Garden Clubs across America.

Club President Unveils Compote

Mrs. Vernon L. Conner, president of the National Council of State Garden Clubs, inc., has unveiled the handmade crystal compote that her organization has commissioned to officially commemorate the 200th anniversary of the United States of America.

The "Disciples of Democracy" Compote, which would have been known in Colonial days as a candy box, is approximately eight inches high and was designed and created by special commission to the prestigious Fenton Art Glass Company of Williamstown, West Virginia. The lid of each piece is crowned with an American Eagle and the sides feature detailed cameos of four of our nation's greatest disciples of democracy--George Washington, Thomas Jefferson, John Adams, and Benjamin Franklin.

Like all fine glassware, the "Disciples of Democracy" Compote has distinctive identifying markings. The Official Garden Club Seal is inscribed beneath the base, along with a Bicentennial mark that dates the piece and contributes to its appeal as a collector's item. When the original compote mould is destroyed on December 31, 1976, the "Disciples of Democracy" Bicentennial Compote will become a limited edition piece that is sure to substantially increase in value.

The National Council of State Garden Clubs Official Bicentennial Commemorative Compote is available locally through the Civic Garden Club.

For further information, call Mrs. Leo Fuchs at 697-2445 or 697-6677.

The "Disciples of Democracy" Bicentennial Commemorative Compote sells for $15.75 with the proceeds from this project being used locally to help finance the many community service programs underaken each year by the Garden Clubs.

CLUBS

Beta Nu

Forty members of Beta Nu Chapter of Delta Kappa Gamma met at Houston's Cafe in Marlin Saturday, Sept. 11 at 9 a.m. for a breakfast.

Playing piano selections for the meeting was Miss Ellen Gray of Marlin.

Mrs. Jean Tumlinson was initiated into membership.

Mrs. N. B. Range of Marlin, president, reported on the Alpha State Convention held in June at El Paso which she and Mrs. Enos Lumpkin of Marlin attended. Plans were made to make the February program for the chapter into separate mini-meetings in the Rockdale, Cameron, Rosebud-Lott-Chilton, and Marlin-Kosse-Reagan areas. An agenda will be furnished and an executive member will be placed in charge of each meeting.

Roses were presented by Mrs. Sidney Hughes of Marlin to Miss Frances Forbes of Marlin, Miss Bertha Pendergrass, and Mrs. Byron Stubbs of Rosebud for perfect attendance at the 1975-76 meetings.

The program for the meeting was directed by Mrs. Enos Lumpkin and was entitled "Committed to What?", the first of a series of the 1976-77 Focus on Committment. Group sessions of the seven goals of the society were led and reported on by Mrs. Sidney Hughes, Mrs. Sam Gray, and Mrs. Jack Stem of Marlin; Mrs. R. E. Souther and Mrs. D. L. Piper of Rosebud; Mrs. Jessie Holloway of Rockdale; and Mrs. Doris Gleason of Cameron.

Mrs. Sidney Hughes accompanied by Mrs. Thaggard Kirkpatrick, pianist, led the group in the singing of the Delta Kappa Gamma work song at the conclusion of the meeting.

Civic Garden Club

The members of the Civic Garden Club held their first meeting of the 1976-77 club year recently at the home of Mrs. B. D. Clark with Mrs. Eunice Lawrence assisting as co-hostesses.

Mrs. Eunice Lawrence presented a program on her recent trip to England.

In the absence of the president, Mrs. Theo Aschenbeck, Mrs. Leo Fuchs, vice-president, conducted a short business session.

Mrs. Don Pemberton and Mrs. Rebecca Miles were welcomed as new members of the club. The club also approved fund-raising projects for the year. These include the gift wrap paper by the Light House for the Blind; The Bright of Ameri- Council of State Garden Clubs, Inc Bicentennial project, the compote, featuring the Disciples of Democracy.

The compote may be ordered through the Civic Garden Club by contacting Mrs. Leo Fuchs at 697-2445 or 697-6677. Price for the compote is $15.75.

The next meeting will include a flower arranging demonstration by Mrs. K. D. Albritton of Belton. The date and place of the meeting will be announced to members at a later date.

A And S League

The Arts and Service League met Thursday, September 9 at the home of Mrs. Lois Sapp. Hostesses were Anita Morrow, Frances Walzel, and Lois Sapp.

Mrs. Jimmy Hauk told of her trip to England last summer.

Baked Beans, Rocky Mountain Style

Baked Beans, Rocky Mountain Style
(12 to 14 hearty servings)

- 4 cups Great Northern beans soaked overnight in
- 12 cups water
- 1 medium (3-ounce) onion stuck with
- 2 whole cloves
- 1 small bay leaf
- 1 fat clove garlic
- 1 teaspoon salt
- 1 medium onion, peeled, left whole
- 2 teaspoons salt
- 2 teaspoons dry mustard
- ¼ cup brown sugar
- ½ cup molasses, light or dark
- ½ cup catsup
- ½ teaspoon Worcestershire sauce
- ½ pound salt pork, rind on
- 3 cups bean liquid and water

To prepare dry white beans before baking: simmer soaked beans in measured amount of water (soaking water if you wish) with onion, bay leaf, garlic, and salt, plus 2 tablespoons butter or salad oil to keep down foam. Cover tightly. Cook until nearly tender, about 1 hour. Best test — put a few beans in a teaspoon. When blown upon, the skins will crack. Time will vary according to hardness of water, altitude, and keeping beans at simmering point. Remove from heat. Discard onion, garlic, bay leaf. Pour beans into colander to drain, saving the liquid. Add enough water to make 3 cups.

To prepare cooked beans for baking (in oven or slow-cook electric pot): for the oven, into a 4-quart heavy bean pot, place whole onion with beans on top. Scrape, wash salt off piece of salt pork. Cut nearly through on fatty side squares about 1/2-inch deep and 1/2-inch apart all over surface. Push the salt pork down into beans, letting only the top edge come up above them. P.S. Maybe better cut in enough squares that each serving will have a square the first time around.

Mix together all other ingredients. Add bean liquid. Stir well. Pour over beans. Cover tightly with foil, then pot cover, unless it fits tightly. Bake all day or night, a minimum of 6 to 8 hours, preferably 8 at 250° oven heat.

SCHOOL LUNCH MENU

CAMERON

MONDAY, SEPT. 20
- Fried fish portions
- Creamed potatoes
- Green beans
- Peanut butter/graham cracker
- Roll, milk

TUESDAY
- Cheese meat loaf
- Whole kernel corn

Wall Repair To Be Topic Of Discussion

By Chris Holcombe

Repairs for plaster walls and paint selection will be the topics of discussion at the second series of programs being held in the Gause and Davilla communities. This program will be presented in Gause on Sept. 20 at 8 p.m. The program will be held at the Gause Community Center.

The program will be presented in Davilla on Sept. 30 at 8 p.m. at the Davilla Community Center on the Bartlett Highway.

These programs are open to anyone interested at no charge.

Personal Mention

Mr. and Mrs. B. F. Harbour have recently returned from a train trip to Chicago where they visited Mrs. Harbour's brother, A. L. Hampton, and his family. The Hamptons have two married children and one son who attends Western Illinois University. Mr.Hampton is a chemical engineer at the United States Gypsum Company.

College Notes

Jane Rachel Matyastick of Cameron was awarded a Doctor of Jurisprudence degree from the University of Texas School of Law at the end of the 1976 summer session.

The fastest bird in the world is called the swift!

Area Girls Invited To Enter Texas Teenager Pageant

Young ladies of this area are invited to enter the Texas United Teenager Pageant to be held at Astroworld, March 4, 5, and 6, 1977, in Houston. The Texas Pageant is the official State Preliminary to the Miss United Teenager Pageant to be held in Washington, D. C., December, 1977. Host Hotel for the three day event is the Astroworld Hotel.

Contestants will be judged on Scholastic and Civic Achievements, Beauty, Poise and Personality. No swimsuit or talent competition is involved. Contestants must be between 14 and 18 years of age as of December 31, 1977 and must have at least a "B" average in school.

The winner of the Texas Pageant will receive an all-expense paid trip to compete in the Miss United Teenager Pageant in Washington, D. C. and other prizes. Among the prizes that will be awarded at the National Pageant in 1977 are $15,000 in scholarships and awards, 1977 Thunderbird for the reigning year, $2,000 personal appearance contract, $2,000 wardrobe, Silver Serviceware and a trip to Europe.

Those interested in entering the Texas United Teenager Pageant may write for information to Barbara S. Munday, State Director, 1491 Hidden Hills Parkway, Stone Mountain, Georgia 30088 or call (404) 469-8433.

BIRTHS

To Mr. and Mrs. Jack E. Walzel Jr. of Buckholts, a boy, Heath Carroll, 8 pounds, born 12:59 p.m. September 8 at King's Daughters Hospital in Temple. Grandparents are Mr. and Mrs. Neal Jernigan Jr. of Barksdale and Mr. and Mrs. Jack E. Walzel Sr. of Buckholts. Great grandparents are Mrs. Bessie Jernigan of Barksdale, Mrs. Lillie Walzel of San Antonio, Mr. and Mrs. F. W. Pope of Barksdale, and Mrs. Alena Miller of San Francisco, Calif. Great great grandmother is Mrs. Lucy Smith of Athens.

To Mr. and Mrs. Frankie Hromcik of Bryan, a boy, Michael, born Sept. 4 at St. Josephs Catholic Hospital in Bryan. Grandparents are Mr. and Mrs. Ernest Jeske of Bryan and Mr. and Mrs. Joe Hromcik of Burlington.

K Of C To Sponsor Picnic

The Knights of Columbus will sponsor their annual picnic at the KC Hall and grounds starting at 1 p.m. Sunday, Sept. 19. Entertainment for the whole family will be featured.

Starting at 5 p.m. a barbecue beef and sausage supper will be served at $2.50 a plate.

Music will be furnished by the Rhein Steins of Cameron.

The entertainment and games will include football throw, baseball throw, basketball throw, ring toss, cake wheel, country store, and a cow chip chunking contest with two trophies awarded to the winners.

The public is invited to come and have a good time Sunday at the picnic.

Meyer To Be Presented In Recital

Clarinetist Gary Meyer, a Southwest Texas State University junior from Cameron, will be presented in recital at 8 p.m. Wednesday, September 22, in Evans Auditorium. The recital is free and open to the public.

Meyer, who is working toward a degree in music education, plans to pursue graduate studies here after receiving his undergraduate degree.

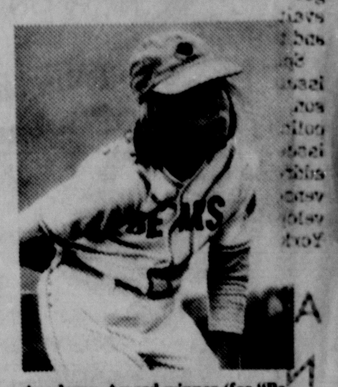
A member of SWT's Marching and Concert Bands, Meyer plays first clarinet for both groups.

The program will include Debussy's "Premiere Rhapsody," Mozart's "Clarinet Concerto" and a set of three unaccompanied pieces by Stravinsky.

Accompanist will be Mrs. Russell Riepe, wife of Dr. Russell Riepe, SWT's music faculty.

Meyer is studying under Dr. David Pino at SWT.

'Bad News Bears' To Show At Drive-In



Academy Award winner (for "Paper Moon") Tatum O'Neal in her second screen appearance is a hot-shot pitcher who helps an otherwise all-male sandlot team toward a league pennant in Paramount Pictures' "The Bad News Bears." Starring Walter Matthau and also starring Vic Morrow, the Stanley R. Jaffe production is a Michael Ritchie film written by Bill Lancaster, produced by Jaffe and directed by Ritchie. In Color.

Enjoy a 10-minute call to Boston without shelling out a lot of clams.

For just $2.57 or less, you could take down these recipes by Long Distance.

We're printing these chowder recipes to make a point: a Long Distance call lets you say so much, for so little.

In a 10-minute call to Boston, between 5 p.m. and 11 p.m. tonight, you could easily take down the recipes below. And by dialing 1+, the most you pay is $2.57, plus tax.

So enjoy a pleasant visit tonight by Long Distance. Wherever you call, you can take the time to find out what's cookin'...without stirring up a big expense.

1. FISHERMEN'S CATCH CHOWDER

- 2 tblsp. butter or margarine
- ½ cup finely chopped onion
- ½ cup finely chopped celery
- ½ cup chopped pared carrots
- ¼ cup snipped parsley
- ½ tsp. crushed dried rosemary
- 1 can (16-oz.) whole tomatoes, drained (reserve liquid)
- 2 cups dry white wine
- 1 bottle (8-oz.) clam juice
- 1 tsp. salt
- 3 tblsp. flour
- 3 tblsp. softened butter or margarine
- 8 ozs. flounder or ocean perch
- 8 ozs. pike or rainbow trout
- 8 ozs. haddock or halibut
- 8 ozs. minced clams (opt.)
- ⅓ cup light cream

a) Heat the first 6 ingredients in Dutch oven until bubbly; reduce heat and cover. Simmer 15 minutes.

b) Chop tomatoes. Stir tomatoes, reserved liquid, wine, clam juice and salt into vegetables in Dutch oven. Heat to boiling; reduce heat and cover. Simmer 10 minutes.

c) Mix flour and 3 tblsp. butter until smooth; stir into chowder. Cook and stir until slightly thickened.

d) Cut fish into 1-inch pieces; and add to chowder. Heat to boiling; reduce heat. Simmer uncovered until fish flakes easily with fork, 8-10 minutes. Remove from heat. Stir in cream.

e) Ladle chowder over sliced, toasted French bread. Garnish with snipped parsley. (Makes six 1½-cup servings).

2. SEAFOOD CHOWDER

- 3 cups water
- 2 cups chopped pared potatoes
- 1 cup chopped celery
- 1½ tsp. salt
- ⅛ tsp. pepper
- ¼ tsp. ground allspice
- ¼ cup butter or margarine
- ¼ cup all-purpose flour
- 2 cups milk
- 1 lb. cod fillets
- 1 tsp. dried dill weed
- 1 cup chopped unpared seeded cucumber
- 2 tblsp. lemon juice
- ½ tsp. paprika
- 1 hard-cooked egg, sliced

a) Heat first 6 ingredients in saucepan to boiling; cover. Boil until vegetables are tender, 10-12 minutes. Drain vegetables, reserving 2 cups broth.

b) Melt butter in Dutch oven; stir in flour. Cook over low heat, stirring constantly, until mixture is smooth and bubbly. Remove from heat. Stir in milk and reserved broth. Heat to boiling, stirring constantly. Cut cod into ½-inch pieces; stir into mixture. Add dill. Heat to boiling; reduce heat. Simmer uncovered until fish flakes easily with fork, about 8 minutes.

c) Stir cucumber, lemon juice, paprika and vegetables into chowder. Heat until hot. Garnish with egg slices. (Makes eight ¾-cup servings).

Legal Notice

PUBLIC NOTICE
SUMMARY OF PROPOSED
CONSTITUTIONAL AMENDMENTS
GENERAL ELECTION NOV. 2, 1976

NUMBER ONE ON THE BALLOT (S.J.R. 49)

Repealing Sections 49-d and 49-d-1 of Article III of the Texas Constitution, S.J.R. 49 amends Section 49-c of Article III of the Texas Constitution to provide for and authorize an additional $400 million in Texas water development bonds that may be issued on approval of two-thirds of the members of each house of the Legislature for such water development purposes as the Legislature may prescribe.

The amendment contains a specific prohibition against the use of state funds for the development of water resources from the Mississippi River and also requires that before any single water development project may be undertaken requiring the expenditure of more than $35 million in bond proceeds, it must be approved by resolution of the Legislature.

The amendment removes the constitutional requirement that certain revenues must be used to retire water development and water quality enhancement bonds and removes the constitutional interest rate limit on such bonds.

The wording of the proposed amendment as it will appear on the ballot is as follows:

"A constitutional amendment to increase from $100 million to $200 million the amount of Texas Water Development Bonds that may be issued for water quality enhancement purposes."

NUMBER TWO ON THE BALLOT (H.J.R. 99)

H.J.R. 99 proposes an amendment to the Texas Constitution to increase from $100 million to $200 million the aggregate principle amount of Texas water development bonds which may be issued and outstanding by the Texas Water Development Board to provide grants and loans for water quality enhancement purposes as established by the Legislature.

The wording of the proposed amendment as it will appear on the ballot is as follows:

"The constitutional amendment authorizing an increase of $400 million in the amount of Texas Water Development Bonds that may be issued on approval of two-thirds of the legislature; amending and consolidating provisions of Sections 49-c, 49-d and 49-d-1 of Article III of the Texas Constitution; and repealing Sections 49-d and 49-d-1 of Article III of the Texas Constitution."

Notificación Legal

AVISO PUBLICO
RESUMEN DE
LAS ENMIENDAS PROPUESTAS A LA CONSTITUCION
ELECCION GENERAL DEL
2 DE NOVIEMBRE DE 1976

NUMERO UNO EN LA BOLETA (S.J.R. 49)

Revocando Secciones 49-d and 49-d-1 del Articulo III de la Constitución de Tejas, S.J.R. 49 enmienda Sección 49-c del Articulo III de la Constitución de Tejas para disponer y autorizar $400 millones adicionales de bonos para el desarrollo de agua en Tejas que se puede emitir a la aprobación de dos terceras partes de los miembros de cada cámara de la Legislatura para tales fines de desarrollo del agua que la Legislatura pueda prescribir.

La enmienda contiene prohibición específica contra el uso de fondos del estado para el desarrollo de recursos acuáticos del Rio Mississippi y también requiere que antes de que pueda encargarse de cualquier proyecto particular para el desarrollo de agua que requiere un gasto de mas de $35 millones de producto de los bonos, debe de ser aprobado por resolución de la Legislatura.

La enmienda remueva el requerimiento constitucional que ciertas rentas deben de ser usadas para retirar bonos para el desarrollo de agua y el encarecimiento de la calidad de agua y remueva el límite constitucional de la tasa de interés en tales bonos.

La fraseología de la enmienda propuesta tal como aparecerá en la boleta es lo siguiente: "La enmienda constitucional autorizando un incremento de $400 millónes de la cantidad de Bonos del Desarrollo de Agua en Tejas que podrán emitirse al ser aprobada por dos terceras partes de la legislatura; enmendando y consolidando disposiciones de Secciones 49-c, 49-d, y 49-d-1 del Artículo III de la Constitución de Tejas; y revocando Secciones 49-d y 49-d-1 del Artículo III de la Constitución de Tejas."

NUMERO DOS EN LA BOLETA (H.J.R. 99)

H.J.R. 99 propone una enmienda a la Constitución de Tejas para aumentar de $100 millones hasta $200 millones la cantidad principal agregada de bonos para el desarrollo de agua en Tejas que se puede emitir y que están en circulación por el Texas Water Development Board para proveer donaciones y préstamos para la mejoría de la calidad de agua como establecido por la Legislatura. La fraseología de la enmienda propuesta como aparecerá en la boleta es lo siguiente: "Una enmienda constitucional para incrementar desde $100 millónes hasta $200 millónes la cantidad de Bonos de Desarrollo de Agua en Tejas que podrán ser emitidos con el propósito de mejorar la calidad del agua."
